Every day, a new adventure.

Suzanne Tick Design™
We can design for anything, with modular spaces that remain constantly fluid, movable furniture that quickly invites a larger group, and patterns that are more multi-purpose and flexible. Formation introduces an organic visual texture that responds to this need for less site-specific interior surfaces. Used in combination with Formation Transition, the two styles work together to create color shifts—and bold impressions—across large-scale, open expanses.
FORMATION TRANSITION 11252 Color: Mineraloid/Caeruleus 58227
24" x24" Vertical Ashlar Installation
FORMATION 11251 Color: Pale Umber 58202
FORMATION TRANSITION 11252 Color: Pale Umber/Marengo 58222
24"x24" Vertical Ashlar Installation

Suzanne Tick Design™
As once disparate segments continue to blend and influence each other, commercial spaces deliver a variety of functions and services for the people who live and work in them every day. The hospitality industry, for example, has lent a sense of luxury and at-home comfort to workplace and healthcare settings. Corporate headquarters and hotels are now offering a comprehensive suite of amenities—from wellness services to open cafés and lounge areas to rooftop gardens—creating an entire community within a single building. As the needs for these spaces grow and shift, so do our patterns for the floor.

Designing for large-scale amenities.
A palette of possibilities.

To support this variety of spaces throughout a floorplan, Formation’s color palette is comprised of warm and cool neutrals in light, medium and dark tones, providing a diverse range of color-shifting options. The palette also includes a soothing green to facilitate contemplation, plus a deep purple, lively yellow, bright teal blue, and a bold red to give energy and branding opportunities.

FORMATION 11251 Color: Verte 58211
FORMATION 11251 Color: Pale Umber 58202
24” x 24” Vertical Ashlar Installation
Fluid space, shifting purpose.

Formation Transition provides a unique tool for designers to demarcate space through color shifts on the floor plane, without the need for permanent panels, walls and partitions. Its reductive design is created with a unique thread-up of shifting yarn colors, causing a morphing of areas where the pattern is more defined, to areas that bring a softer interplay. The resulting gradual interchange of color is similar to the way landscapes shift from color to neutral and back again. A fluidity that lends itself to co-working spaces, team collaboration and a general coming together of all who wish to be a part.
Suzanne Tick is the founder of Suzanne Tick Inc., specializing in materials brand strategy, product design, development, and direction for commercial interiors. Her designs, across product platforms, have won numerous design awards and continue to break new ground in the industry. In addition to her work in commercial interiors, Suzanne maintains a hand weaving practice and creates woven sculptures from repurposed materials. Her work is exhibited worldwide, including MoMA and Art Basel, as well as collected by private and corporate clients. A portion of the carpet sales for every Suzanne Tick design installed in K-12 and higher education environments is donated to Publicolor in NYC. Learn more at publicolor.org.

At Tarkett, we believe in placing people in the center of every space. So we've developed a portfolio of products designed to work together both functionally and aesthetically, helping you create more productive workspaces that maximize return on investment.

The Tarkett Solution SPECtrum™ helps you expertly recommend a flooring platform for the specific needs of every space and every budget. And our full palette of colors, patterns, and textures is coordinated to work together visually across platforms. So the endless balance of function, safety, and longevity is always done on budget, in style, sustainably. Without compromise.

Rollability is the ability to move (or roll) pieces of furniture such as chairs or beds on flooring.

ethos® Modular + Omnicoat Technology™

Overcome what lies beneath.

Don’t lose time and money on challenging substrate issues—ethos® Modular with Omnicoat Technology™ eliminates installation problems before they happen. Its breakthrough, proprietary coating creates a chemical barrier that works on any adverse flooring substrate—from green and chemically abated concrete to old adhesives. And as long as there’s no evidence of standing liquids or staining, ethos eliminates the need for moisture, pH and MVER testing when installed with TarkettTAPE™.

ReStart® includes Tarkett’s third-party certified reclamation and recycling program that reclaims and recycles post consumer flooring, installation waste, samples and portfolios. To initiate ReStart, contact customer service at 800.248.2878.
