## Tandus Centiva: People with Purpose Celebrate Earth Month

Dalton, GA (May 9, 2015) — Contributing to our focus on social and environmental responsibility, Tandus Centiva, a Tarkett company, hosted a plethora of educational activities during Earth Month.

In an effort to involve local communities in Earth Month festivities, Tandus Centiva hosted an Instagram contest, #TCGreen2015. The contest honored those that were actively improving the areas in which we live, work and breathe. Entries included a grey water gravity system, refurbished furniture, repurposed glass and metal containers and recycling of old flooring materials. The winning entry received a Nest Learning Thermostat and was awarded to Mackey Mitchell for his beautifully refurbished furniture and responsible office activities.

Tandus Centiva sponsored HKS Green Week on Earth Day. In the HKS Dallas office, Z Smith from Eskew + Dumez + Ripple Architects presented "Track Everything: Using the 2030 Commitment to raise Performance Firm-wide." The presentation was webcast to other HKS satellite offices across the country. Tandus Centiva shared its progress on implementing the Cradle-to-Cradle® principles and their influence on its Good Materials strategy, one of the four pillars of Tarkett's Closed Loop Circular Design strategy. The HKS Mindful MATERIALS library selection tool recognizes Cradle-to-Cradle Certification.

Tandus Centiva account executives across the country gave local sustainability presentations to reach as many people as possible. As a standard part of our ReStart® Program, a focused effort to gather old catalogs and architectural folders to be reused and recycled was accomplished.

Tandus Centiva facilities in Dalton, GA and Florence, AL have adopted streets and made a commitment to keeping them clean. During Earth Week, employees were able to remove approximately 355 lbs. of litter from streets in both locations.
