TANDUS FLOORING® TAKES THREE BEST OF NEOCON® AWARDS

Recognized in Modular, Broadloom and Healthcare Categories

(Dalton, GA—June 22, 2011) The introduction of Tandus Flooring's new products spurred interest among hundreds of NeoCon-goers. These products also interested Best of NeoCon judges...and editors...and resulted in three awards—The Change Collection was awarded the coveted Editor's Choice Award in Modular; the luxurious woven product, Rough Hewn, took home Silver in the Broadloom category; and the extensive Estuary Collection took home a Silver in the Healthcare category

Tandus Flooring's Change Collection offers a fresh design that captured audiences' attention—as well as the attention of the editors with Editor's Choice award in Modular. The three styles within the Change collection are designed using Tandus Flooring's revolutionary Sero™. The Sero design approach creates purposeful variations with colors, patterns and textures that now flow, pool and shift from tile to tile culminating in a unified floor design.

“The Change Collection turned a lot of heads at the show and gave us the opportunity to really showcase the Sero design approach,” said Tom Ellis, Vice President of Marketing, Tandus Flooring. “This Collection in particular demonstrates the infinite possibilities for design that Sero offers—each modular installation will be as unique as the space where it's installed.”

Highlighting the various product platforms Tandus Flooring offers, the Best of NeoCon judges recognized broadloom and woven products for their design. Rough Hewn, a timeless woven style, was awarded Silver in Broadloom. Tandus Flooring provides for the first time a heavy-weight, voluminous woven carpet for environments requiring the durability and cleanability of solution-dyed nylon.

The recently launched Estuary Collection took home Best of NeoCon Silver in the Healthcare category. The collection consists of seven contemporary broadloom styles and was designed with the senior living environment in mind. Pattern scale ranges from large to small and are available in 13 refreshing colors ranging from red/rust to earth neutrals that have been carefully selected to coordinate with the newest senior living interior finishes.
